

Because of a growing demand in our services, PHPro is looking for a new colleague to join our team. Are you interested in working with us and you want to apply for this job? Please don't hesitate and send us your CV and motivation letter to info@phpro.be. Our vacancies apply to our office locations in **Hasselt & Kontich** as well as our soon to be opened office in **East Flanders**.

Next to your thorough knowledge of internet technology, you're also motivated to learn new things. You always aim for perfection and top quality in your work and show initiative and involvement in projects. You're a communicative team player with a good sense of humour that can work independently.

As a PHP developer in the PHPro team, you will be building stunning front-ends (xHTML, CSS, Javascript) as well as stable and usable backends for enterprise web applications. You'll be working with, customizing or integrating 3rd party software with existing open source applications (Magento, Drupal, Joomla,...) as well as developing custom enterprise level applications based on frameworks such as Zend Framework, Symfony,...

YOUR SKILLS

- Good analytical, creative problem solver
- Thorough knowledge of client side technology (HTML, CSS, JavaScript, AJAX)
- Thorough knowledge of object oriented PHP5
- Good knowledge of databasemanagement and MySQL
- Notions of Apache server configurations
- Knowledge of Dutch and English

NICE TO HAVE

- Knowledge of or certifications in Zend Framework or Symfony
- Knowledge of Magento, Drupal or other PHP based software solutions
- Knowledge of French

WHAT WE OFFER

- Competitive salary with benefits (company car, laptop, ...)
- Top 50 customer projects in enterprise level.
- Flexible working hours.
- A young team of motivated developers waiting to inspire you.
- Growth possibilities.
